## PREMIUM WATER HEATER PROGRAM

This water heater program offers rebates to customers that purchase an electric water heater and sign an agreement allowing future load control of the unit.

- The electric water heater must be used for domestic water heating only and be on TIP Rural Electric’s electric lines. The unit cannot be used in conjunction with radiant space heating systems (Example: In floor heating in place of a boiler)
- The electric water must have a minimum of a 50 gallon storage tank.
- The minimum energy factor is .92.
- The minimum warranty is 8 years.
- The electric water heater cannot be connected in any way to a gas system (example: it cannot be used as a storage tank for a gas heated in-floor system)
- The electric water heater must be energized and not used for a storage only tank.
- Member must sign a load control agreement allowing future control of these water heaters on a limited basis (maximum of 2 hours per day)

TIP Rural Electric Cooperative needs you to furnish the following information:

1. Copy of the Sales Receipt
2. Signed copy of water heater agreement
3. Size of water heater \_\_\_\_\_
4. Brand of water heater \_\_\_\_\_
5. Model number of water heater \_\_\_\_\_
6. Serial number of water heater \_\_\_\_\_
7. Energy Factor \_\_\_\_\_

- The rebate amount is \$ 350.00
